

\$KISKA WHITEPAPER

A Memorial token honors the world's loneliest orca, symbolizing freedom and raising awareness against marine animal captivity.

WTF is \$KISKA?

A Memecoin With a Heart (And Teeth)

Kiska was the saddest orca ever – 44 years alone in a tiny tank at Marineland Canada until she died in 2023. While other memecoins pump and dump, we're building a living memorial token on Solana that:

- Locks 2% of supply FOREVER to fund marine conservation
- Lets degens vote on which animal NGOs get paid
- Makes sure Kiska's name lives on in crypto history forever.

Tokenomics (The Based Numbers)

Total Supply: 1,000,000,000 \$KISKA

Allocation	Amount	What it does
Donations	2%	Locked- 0.5% donates yearly on Kiska's death anniversary
DEV	0.47%	Honoring Kiska: 47 years, 0.47%.
Marketing	2%	Meme wars, CEX listing, and influencers collab
Liquidity	95.53%	Fair launch on DEX no team token.

How Donations Work (Degens Decide)

Step 1: Lock the Bag

- 2% of supply goes to a publicly visible wallet and locked
- Smart contract releases 0.5% per year starting March 2026

Step 2: Degens Vote

- Community nominates animal charities (Twitter polls)
- Top 3 options go to Snapshot vote
- Winning NGO gets \$KISKA → USDC live on stream

First Target: Orca sanctuaries → Then elephants, big cats, etc.

Why Solana?

- Cheap AF transactions (unlike that ETH boomer chain)
- Fast as hell for voting and donations
- Based memecoin ecosystem (we like the vibes)

Roadmap (Wen Moon? Wen Donate?)

Phase 1: Launch (Summer 2025)

- Launched a sticker pack in tribute to Kiska on her death anniversary, March 9, 2025.
- Fair launches on DEX
- First CEX listing once after bonding curve reaches

Phase 2: Kiska Day March 9 2026

- First donation Convert 0.5% of supply to USDC live on Twitter and send to winning NGO (voted by holders).
- Partner with 1 major marine org (e.g., Sea Shepherd) for AMA + merch collab (profits fund rescues).
- **Memewar Campaign:** Orca vs. Doge meme contest – best meme wins 10M \$KISKA.
- Listing on Tier -2 exchanges.

Phase 3: Take Over (2027+)

- Vote to add elephants/big cats to donation pool (0.25% marine, 0.25% land animals)
- Partner with **The Elephant Sanctuary** for Twitter Spaces.
- "Voices of the Voiceless" NFT collection (art of Kiska + other species). Proceeds fund NGOs.
- Full 2% supply donated. Host IRL event at an aquarium (protest -> donation hybrid).
- Release **documentary short** on Kiska's legacy + crypto's role in activism.

Team (Anonymous But Based)

- **Devs:** Ex-Solana degens with animal welfare passion
- **Mods:** Meme lords who actually care
- **Transparency:** All wallets public, locked funds verifiable.

How to Join

This ain't just a token - it's a movement.

Buy \$KISKA → Support marine life

Vote → Decide where donations go

Skill → More holders = bigger donations

Final Note

We're tired of memecoins with zero purpose. \$KISKA proves degens can:

Make life better for captive animals

Build a self-sustaining donation machine

Keep Kiska's memory alive FOREVER on-chain
